

## Where's The Bin?

Rumour has it that there was once a compost bin here before the fly tippers came!

Bagging some of the rubbish I can see something that might be a compost bin?

Tarpaulin looks like it may have something underneath it!

Opening the front door looks like something?

3 feet of something?

Possible?

Yes it is compost!

A new front door and the compost bin/heap is ready to use!
